PROFILE

Self-motivated and detail-oriented Computer Science undergraduate with solid experience in full-stack development using HTML, CSS, JavaScript, and the MERN stack. Demonstrated ability to build responsive user interfaces, develop REST APIs, and deliver real-world projects. Strong foundation in problem solving and team collaboration, with a passion for clean code and continuous learning. Actively involved in tech communities, hackathons, and hands-on development beyond coursework.

PROJECTS

Skill Swap – Peer-to-Peer Learning Platform

Role: Frontend Developer (HTML, CSS, JavaScript)

- Developed core frontend pages using HTML, CSS, and JavaScript for intuitive navigation and user profiles
- Designed responsive UI components and user-friendly layout to enhance usability
- Collaborated with the team on frontend features like skill listings, profile display, and booking pages
- Worked closely with the UI/UX team to translate wireframes into clean, functional interfaces

AI Image Generator – Text-to-Image Web App

Role: Frontend & Documentation

- Designed core UI using HTML and CSS for user prompt input and image display
- Collaborated on integrating external AI API to generate images from text
- Created project documentation and usage guide for users and developers

Portfolio Website (Personal Project)

- Built a personal portfolio using HTML, CSS, and Bootstrap
- Integrated sections for projects, resume, and contact form
- Responsive layout and cross-browser compatibility

Other Projects – Spotify UI clone, To-Do List Manager, Login Page UI (all using HTML, CSS, JS)

EXTRA-CURRICULAR ACTIVITIES

- **Innovixus Technical Club** – Founder Member & Graphic Designer:
 - Organized a 24-hour hackathon and multiple bootcamps
 - Designed visuals for technical events
- **Google Developer Student Club** – Graphic Design Lead:
 - Created promotional materials for workshops and tech events
 - Led a 5-day free web development bootcamp
